Our ability to see reality is often obscured by the fears and desires of the ego, and by the speed and anxieties of modern culture and institutions. We need clarity and purity of heart today in new, more urgent ways . In these talks, Father Laurence teaches that meditation is the daily practice that purifies our seeing and transforms our whole way of living. It gives us the power to see through illusions and addictions that one seemed as solid as reality itself. The result is reality: simplicity and truth reflected in the supremely human gifts of forgiveness, love and the peace that passes understanding.
